

0:02
every child has a right to an education
0:04
but around the world there are millions
0:06
of primary age children still not in
0:08
school
0:09
amongst the least likely to get to
0:10
school are children with disabilities
0:12
millions of children are not getting the
0:14
chance to learn how to read and write
0:16
they are being denied the opportunities
0:18
that come with education
0:20
and the repercussions are lifelong there
0:22
are reasons why these children
0:24
so often miss out on an education
0:27
schools can be hard to access for those
0:29
with mobility restrictions or hearing or
0:32
vision impairments
0:33
teachers may not have the tools or
0:35
training they need to help all of their
0:37
students
0:38
like those with learning disabilities to
0:39
learn
0:41
sometimes it's the families and
0:42
communities that don't understand the
0:44
importance of learning life skills in a

0:46
school setting
0:47
they may think their children are not
0:49
able to learn or not worth an education
0:51
school should be a place where all
0:53
children can participate
0:55
all students are treated equally and
0:57
where every child belongs
1:01
we don't have yet
1:04
an inclusive education system where a
1:07
child can go into
1:09
a classroom let alone a teacher that is
1:11
trained
1:12
to have a child with a disability in
1:15
his or her class so our situation in the
1:19
solomon is still that
1:20
our children won't go to school those
1:23
that can go to school
1:24
will probably just be sitting there but
1:26
they're not receiving the quality
1:28
education that he or she should be
1:32
receiving
1:33
world leaders have agreed that all
1:35
children need primary schooling it's
1:37
their right

1:38

but we can only achieve universal

1:40

primary education when every child

1:42

everywhere has the opportunity to attend

1:44

school

1:45

and every school is equipped to both

1:47

teach and

1:48

include children living with disability

1:51

with your voice

1:52

together we can improve educational

1:54

facilities and opportunities for

1:56

children living with disability

1:58

we can end the cycle

2:11

you
