

Let there be light!

After successful cataract surgery in Tanzania, East Africa, Hemedi can't get over seeing the beauty and brightness of a flower.

£190 can pay for surgery to remove cataracts from a child who is blind, lighting up their world and giving them a brighter future.

Every day, people are losing their sight because of diseases or conditions that could be prevented or treated. Driven by Christian values, Christian Blind Mission works in the world's poorest places to prevent blindness, improve health and transform the lives of people with disabilities.

Let there be light!

On the shores of Lake Victoria in Uganda, East Africa, Mathias' cataracts make every day tasks a struggle. His grandmother worries what kind of future he will have if he remains in the dark.

Cataract surgery costing £190 is all it takes to restore Mathias' sight and future hopes.

Every day, people are losing their sight because of diseases or conditions that could be prevented or treated. Driven by Christian values, Christian Blind Mission works in the world's poorest places to prevent blindness, improve health and transform the lives of people with disabilities.
