

6 year old Adip has cataracts.

As his eyes get worse, he struggles at school.

He needs surgery to save his sight.

But for families like his, farmers in rural Nepal, sight-saving treatment seems out of reach.

In their fear and confusion, they feel it would take a miracle.

But for children like Adip, miracles are made of your giving spirit.

Just £24 can provide a 15-minute sight-saving surgery.

Will you give the Miracle Gift of sight this Christmas?
